The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/539,293	Applicant(s) BRUSKE ET AL.	
	Examiner BOBBY H. MUROMOTO JR	Art Unit 3765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-9 and 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Nussbaum US 3071164.

Nussbaum discloses, a slideless (play free) heddle frame.

The heddle rail 1a is clearly composed of two opposing members (Jibs, spring legs) 1a (upper and lower). The opposing members both have heddle receiving portions.

Nussbaum discloses that both opposing members can be attached to the frame by spring members or that only one of the opposing members is attached to the frame by spring while the other is rigidly attached.

In operation the opposing members are 'tensed away from one another' for play free heddle support and conversely they are pushed towards each other to release the heddles for adjustment or removal (compression spring).

Figures clearly show the heddle receiving areas of the opposing members as C-shaped and or U-shaped with one longer leg, as claimed.

Figure 1 clearly shows four coupling points for the harness frame on the four corners of the frame (spaced transverse to direction of movement) to which harness is inherently 'drivingly coupled' to the weaving machine.

Response to Arguments

Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3765

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
